Our Futurliner #10 in 1998

(And the first 5 volunteers – looks like all it started with 2 brooms)

This 39th issue of our newsletter continues the semi-annual newsletters now that the vehicle is completed and being displayed during the year. This project has been an all-volunteer effort that started in 1998 with the goal of restoring one of the twelve GM Futurliners, originally built in 1940, to its original and functional condition. The vehicle was donated to the National Automotive and Truck Museum by Joe Bortz in the early 1990's and is still owned by the museum in Auburn, Indiana. The restoration project was led by volunteer **Don Mayton** in Zeeland, Michigan with a group of nearly 40 volunteers participating.

The volunteers above in 1998 are (l-r): Wes Myrick, Del Carpenter, Ed DeVries, Don Mayton and Wayne Jackson. This group soon grew to over 35 members in Michigan alone.

2011-2012 Futurliner Shows Status

Check the web site for future updates.

There are a number of changes from the early schedule in our Oct 2010 newsletter so read carefully.

 - **Kalamazoo Air Zoo** – Our Futurliner has been on display during the fall and winter 2010-2011 in the Kalamazoo, Michigan museum. This is an airplane museum with a lot of interactive displays for children and adults. There is a display of the same vintage jet engine that was in one of the Futurliners. The Futurliner was in a very prominent location in the museum and received a lot of visibility all winter long. And again, our volunteers “manned” it on Saturdays all winter. Check out their web site – www.airzoo.org/. It is located just south of the Kalamazoo/Battle Creek airport and south of I-94, 6151 Portage Rd, Portage, MI 48002, 866-524-7966.

You can help - If you are planning to attend any of the shows, and if you are inclined to give us a hand, let the "in-charge" person know or let Don or Dean know (addresses at the end). We'd love to have help telling visitors about the project and help selling memorabilia to support the project.

What's Happening Lately:

- The Futurliner was moved back to Grand Rapids in March for annual maintenance and prep for the summer show season.
- We are also considering several museums for the winter of 2011/2012. Having the Futurliner on display at the ACAA and the Air Zoo has proven to be very valuable to both the museums and the project. Sue beats having it sit in a storage unit all winter.
- Rennie Goyette sent 4 interesting photos from the early 50's and they are posted on the web site.

History:

- Joe Bortz sent us the photo showing how the Parade of Progress tent was set up. Note the lack on internal supports – a very unique feature in the 50's. It looks small here but compare it with the guys setting it up.

Futurliner Memorabilia for Sale:

Items available thru NATMUS serve as both fund-raisers for the Futurliner Restoration Project and interesting memorabilia for all of you.

- **DVD** The video, titled "**Miracle at Beaverdam**", is available on either VHS or DVD and can be requested from NATMUS for \$25 (including S&H). **Model** - A scale model is available for \$45 plus \$10 S/H. It is 1/64 scale or about 6" long and comes in a clear plastic display case.
- **Historical Book:** If you are interested in the full history of the Parade of Progress and the restoration project, pick up a copy of "**General Motors Parade of Progress & A Futurliner Returns**." The book is available through the Futurliner web site www.Futurliner.org with links to the NATMUS store or by calling NATMUS at (260) 925-9100. The price by mail is \$35 (which includes postage, taxes and handling) or \$29.95 at the NATMUS museum store.
- **Donations** are still required for on-going repairs and maintenance of the Futurliner. Many people have been very generous in their financial support of the project and all donations are deeply appreciated. Donations can be sent to **NATMUS, 1000 Gordon M. Buehrig Place, Auburn, IN 46706** and they are fully tax deductible. *Be sure to mark your check for the Futurliner project.*

Miscellaneous:

- We get numerous requests to bring the Futurliner to shows around the country. This is no small effort of course with a vehicle this size and which requires a sizable staff to accompany it. Because of the complexity of moving and showing the vehicle, the crew and NATMUS have established the guidelines that were detailed in a recent issue (#31 – Nov 2007). If anyone is interested in requesting the Futurliner for your show in 2011 or later, contact Don Mayton (address below).
- We have learned recently that we have lost two former Paraders – Doug Dean of Lansing, Michigan died in October and John Conroy of Ohio in January.
